

# JST-XH 2.54mm Pitch Connector Kit - 560 Piece Kit

PRODUCT ID: 4423

Totaling 560 pieces, this JST-XH Connector Kit is a must-have for your workstation. You'll have enough sockets and headers to fuel your maker tendencies for days on end!

These connectors are really common in electronics, we use the 2 pin ones for our arcade quick-connects. Since they are 0.1" they match nicely with perf-boards, breadboards, plain header, etc.

We recommend you own a set of crimping pliers as well, such as these nice ones from Engineer - they're easier to use than trying to crimp with pliers.

Since they are nylon, they don't conduct electricity or interfere with antennas/magnetometers.

Set contains the following parts in a nice reusable storage container:

- 20 x JST XH 2.54mm 2-pin connector
- 20 x JST XH 2.54mm 3-pin connector
- 20 x JST XH 2.54mm 4-pin connector
- 20 x JST XH 2.54mm 5-pin connector
- 20 x JST B2B-XH-A 2.54mm TH shrouded header
- 20 x JST B3B-XH-A 2.54mm TH shrouded header
- 20 x JST B4B-XH-A 2.54mm TH shrouded header
- 20 x JST B5B-XH-A 2.54mm TH shrouded header
- 200 x JST-XH 2.5mm female crimp pin
- 200 x JST-XH 2.5mm male crimp pin
