Customer Information Notification 201107009I

Issue Date: 23-Jul-2011
Effective Date: 18-Oct-2011

Dear *pcn system2*,

Here's your personalized quality information concerning products Future Electronics purchased from NXP.
For detailed information we invite you to view this notification onlin

PowerMOS - Resetting of Minimum Order Quantities

Information Notification

The minimum order quantity - also known as MOQ or MOLV - of a number of device types is to be returned to it's original level after a period of time at a reduced level. Details of the current and new minimum order quantities can be found in the attached list.

Why do we issue this Information Notification

NXP Semiconductors has had an ongoing Minimum Order Line Value (MOLV) Policy for a long time.

In order to better support our customers' urgent needs, as a result of the unique market conditions for the last two years, NXP made the deliberate decision to allow orders below MOLV.

Now the market has stabilised we are reinstating the MOLV concept as of 1st May 2011 and applying our existing policy.

Identification of Affected Products

Product identification does not change

Impact

no impact to the product's functionality anticipated.

Data Sheet Revision

No impact to existing datasheet

Disposition of Old Products

Existing inventory will be shipped until depleted

Additional information

Additional documents: view online

Remarks

This product change notification is for your company internal use and for your use as Distributor towards your direct customers. You are responsible for the correct circulation of this information to your direct customers. NXP does not accept liability for any failure to notify your direct customers of this change within the appropriate timeframe, or for any other incorrect further distribution of this information.

Contact and Support

For all inquiries regarding this quality notification or the products concerned please contact our Global Quality Support team

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.
Customer Focus, Passion to Win.

NXP Quality Management Team.

About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications. A global semiconductor company with operations in more than 25 countries, NXP posted revenue of $4.4 billion in 2010.
