

Stacking Header Kit for ItsyBitsy or Teensy

PRODUCT ID: 3883

These three Stacking Headers alone are, well, lonely. But pair them with our ItsyBitsy boards, and you're in business! Great for putting something a-top your ItsyBitsy, like this AirLift bitsy add-on. Also works great for 'short' Teensy boards - not Teensy 3.5 or 3.6 long style boards.

Note: Kit includes two 14-pin and one 5-pin header. ItsyBitsy not included.

Don't need all that stack? We also have these as shorty female headers or shorty male headers.
