

# JST PH 2.0mm Pitch Connector Kit - 220 Piece Kit

PRODUCT ID: 4422

Totally 220 pieces, this JST-PH Connector Kit is a must-have for your workstation. You'll have enough sockets and plugs to fuel your maker tendencies for days on end!

These connectors are really common in electronics, we use the 2 pin ones for our batteries and battery packs. The 3 pin and 4 pin are used for STEMMA connectors. The 4 pin size is even compatible with Grove! They are large enough you can crimp without too much difficulty, but not as chunky as 0.1" / 2.5mm JST XH

We recommend you own a set of crimping pliers as well, such as these nice ones from Engineer - they're easier to use than trying to crimp with pliers.

Set contains the following parts in a nice reusable storage container:

- 10 x 2-pin female connector
- 10 x 3-pin female connector
- 10 x 4-pin female connector
- 10 x 5-pin female connector
- 10 x 6-pin female connector
- 10 x 8-pin female connector
- 10 x 2-pin male connector
- 10 x 3-pin male connector
- 10 x 4-pin male connector
- 10 x 5-pin male connector
- 10 x 6-pin male connector
- 10 x 8-pin male connector
- 100 x crimp female sockets
